

Actief voor Amstelveen Key Issues

- Priority for locals on the housing market
- More personalised and person-oriented home care, lower administrative burden
- Business desk for self-employed workers and SMEs
- Animal welfare, as well as the social importance of human and animal interaction
- Make public transport accessible for everyone, keep all current stops
- Municipal finances in order, for now and for the next generation
- Actively encourage people young and old to engage in sports, for those with and without disabilities; school swimming for all children; update sports facilities
- Support art and culture, possible realisation of an art academy
- Support and facilitate technical education and craft education, set up work experience projects together with business
- Invest in being and feeling safe together
- Energy-neutral municipal properties and sports facilities
- Redevelop office buildings and business parks for housing and starter homes, and advance movement in the housing market
- More charging points for electric cars in the neighbourhoods
- Weekly consultation hour with elected AVA party members for residents
